- Grandparents'/Special Persons Day

Hot Lunch: Sloppy Joes, Chips, Pickle,

Fruit, Dessert

School Play @ PAC - 1:00/7:00PM

News and Updates

More Play Practices: We've come so far and have so far to go! Great progress has been made but we're not out of the woods yet. The scenes haven't quite come together yet and that is mostly due to students not having their lines memorized. Please run through your child's lines with them over the weekend if at all possible. Next week we are practicing at the PAC from 3:30-5:15. I'm excited for you to see the finished product next Friday at 7:00PM.

Religion: This week, we had just one Christlight lesson due to our all day field trip on Wednesday. In that lesson, Jesus taught us about paying taxes to Caesar. In our Faith Foundations lessons we studied the Holy Christian Church.

English: The students delivered their dramatic presentations on Monday. Some of them were very entertaining. I could really see the work they put into their presentations over the weekend. Some students could have put in a little more effort. The challenge set before me is finding a way to get them all excited about learning.

Reading: Bridge to Terabithia: We finished the book. The students were shocked! Obsessed with death, they found it to be an exhilarating ending. They will be quizzed on Ch 11-13 on Monday.

Notes & Reminders...

- The artwork for the TCFAF needs to be brought to Trinity by Tuesday, March 28.
- A note about the Silent Auction went home recently. Please look it over. Each grade has its own theme this year. The 5th Grade theme is **"In the Garden"**. The 6th Grade theme is **"Mexican Dinner Night"**. If you'd like to donate something on behalf of your child and the classroom, you are welcome to do that at any time. Just bring it right into the classroom.
- PreK-8 sings this Sunday
- 6-8 sings on March 19
- Camp Bird: Information went home a few weeks ago. Week one is starting to fill up! If you want to send your child during week one (which is the best week) please fill out the form soon and bring it to school so that Pastor Redfield can sign it.

Math: The 5th graders learned how to convert units of capacity, multiply fractions and whole numbers, and used manipulatives and sketches to divide fractions. The 6th graders reviewed the order of operations, used cross products to solve proportions, calculated area of a circle, and found some missing factors.

Social Studies: Map tests went pretty well overall. A few cities got switched and since there were so few points, it came off as a shock.

Science: Mr. Henning guided the students through an interesting science experiment on density. If you asked them for their biggest takeaway, they'd probably mentioned the strongly sticky goggles.

Picture Caption: If you'd like to order more pictures from the company who took our Basketball pictures, you can click [here](#) and check out the entire album! We have been practicing for the play in the church due to the large amount of things on the stage in they gym. The students are excited to finally rehearse in the PAC.
