Good Friday - 7:00PM

Easter Break!

News and Updates

State Bank of Belle Plaine Field Trip: We were invited to the State Bank on Wednesday for their “Teach Kids to Save” program. While there, we were given a tour of the building. Did you know they have a water dispenser on every floor? We were also fed and locked in one of the vaults. Alycin’s mom, Debbie, led us on the best portion of the tour! :)

Religion: Our two Christlight lessons focused on Peter’s Denial and Jesus’ time before Pilate. Our Faith Foundations lessons continued our study of Holy Baptism.

English: We learned all about propaganda this week. Now your children are properly prepared to make an educated business decision. Time to go shopping!

Reading: The Phantom Tollbooth: We are already five chapters into our next book! This book has many similarities to Alice in Wonderland. The students have enjoyed making the comparisons.

Math: The 5th graders used reciprocals to divide fractions, studied negative numbers, added and subtracted whole numbers and decimal

Notes & Reminders...

- Warm-ups for the Jr. Choir on Saturday start at 9:20. I would recommend getting to St. Croix by 9:00 at the latest.
- Jr. Choir sings on Easter!
- A note about the Silent Auction went home recently. Please look it over. Each grade has its own theme this year. The 5th Grade theme is "**In the Garden**". The 6th Grade theme is "**Mexican Dinner Night**". If you'd like to donate something on behalf of your child and the classroom, you are welcome to do that at any time. Just bring it right into the classroom.
- Camp Bird: Information went home a few weeks ago. A few registration slips came in again this week which makes **week one even fuller!!!** If you want to send your child during week one (which is the best week) please fill out the form soon and bring it to school so that Pastor Redfield can sign it. campbird.org
- Mr. Henning is playing the piano for the Sr. Choir on Sunday.

numbers, and simplified decimal numbers. The 6th graders graphed functions, studied transversals, and calculated angle measures of triangles and quadrilaterals.

Social Studies: I was very impressed with the East Asia Map Test! Great job students! We started a new unit this week focusing on Southeast Asia. On Thursday, we did a comparison of two maps based on their scale.

Science: Our new chapter is focusing on heat energy. This week we studied temperature, heat, and how heat affects matter. We also talked about the possibility of glass shattering when warmed up and then immediately placed under cool running water. Some of the students thought it might be fun to try that at home. I encouraged them not to. You'll want to keep an eye out.

Picture Caption: Mr. Henning left each of the students a card with some nice thoughts. On the back side was a little project involving some google eyes and a mustache. The students were very impressed.
