FREE Hot Lunch!!!! Hotdogs, Chips,
Watermelon, Dessert

Thursday - 1

1 Timothy 2:3-4

End of the 4th Quarter!

Last Day of School!

Noon dismissal

News and Updates

Track & Field: What a fabulous day we had for our Track & Field day! The students complained about it being too warm. My father has a saying about people who complain. I won't mention it here. Despite the "warm" weather, several records were broken. Stay tuned to find out the "what" and "who".

Religion: We had five Christlight lessons this week which helped us get back on track for finishing all of our lessons before school lets out for the summer. In our first lesson, the gift of the Holy Spirit was given to the disciples as they prayed in a room together. In our second lesson, Peter delivers his Pentecost sermon and many were baptized on that day. In our third lesson, Peter and John went to the temple to preach and had the opportunity to perform a miracle by the power of Jesus Christ. In our fourth lesson, the Sadducees were not happy with the apostles for preaching about a risen Savior so they tried to have them thrown in prison. In our fifth lesson, the apostles continued preaching about Jesus even after they were imprisoned.

Notes & Reminders...

- PreK-8 sing on Graduation Sunday - June 4
- The whole school was also asked to sing for Mrs. Hahm' farewell - June 11. Put it on your calendar!
- I was asked to direct the Jr. Choir on June 25 for our regular Sunday Service. Put that on your calendar as well!

English: Reports weren't presented on Monday and Tuesday as forecasted but we did get a few in this week. We will continue to give our presentations next week.

Reading: Where the Red Fern Grows: I am embarrassed to say I could hardly make it through the last two chapters. Reading a sad book silently is one thing. Reading it aloud is a whole other ball game. Get your tissues out because the movie is coming up on Wednesday.

Math: The 5th graders used zero as a placeholder, divided decimal numbers by decimal numbers, and multiplied mixed numbers. The 6th graders found a whole of something when fractions and percents were known, and calculated the volume of a cylinder.

Social Studies: We looked at four different kinds of maps this week and studied their purpose. We also started studying Antarctica. It was a chilling experience.

Science: We studied Newton's Laws of Motion. It was a moving experience forced upon the students.

Picture Caption: The students were visited by Officer Vycital on Thursday. The topic was *Internet Safety* and the dangers of having a social media account. Mr. Whitney immediately posted this photo on Facebook after the experience, because if there isn't a photo - it didn't happen.
