News and Updates

Summer Vacation: So...now what?

Religion: We made it all the way through the curriculum! On Tuesday, we studied the persecution of the early church. On Wednesday, we reviewed the story of Philip and the Ethiopian. Today, we looked at how God used Saul to go from his full time job of destroying the Christian church, to building it back up through the work of the Holy Spirit. It is my prayer for us this summer that we are able to speak as boldly as Saul did about his faith in Christ.

English: We did it! We were able to present our research reports before the last day of school. There were many interesting facts discussed that many of us had never heard of before.

Reading: Where the Red Fern Grows: We can all agree - the movie is not as good as the book. Only like 2 kids cried at the end, and definitely no teachers.

Notes & Reminders...

- PreK-8 sing on Graduation Sunday - June 4 (This Sunday)
- It's up in the air whether the kids will sing for Mrs. Hahm's farewell. Keep your eyes peeled for an email!
- I was asked to direct the Jr. Choir on June 25 for our regular Sunday Service. Put that on your calendar as well!

Math: We did it in Math too! On Tuesday the 5th grade tested and on Wednesday they had their last investigation on Tessellation. The 6th graders also had their last investigation on creating platonic solids. The kids were much better at it than I was.

Social Studies: We ended the year by doing some research in Antarctica. Well...we were in the classroom, but it was research about researching in Antarctica.

Science: We studied the relationship between energy and work. We learned how to be as lazy as possible and still get work done. Let's change the word "lazy" to "efficient".

Picture Caption: The students presented a skit in our Christlight lesson on Wednesday. We practiced good ways and bad ways to witness. The picture on the cover was taken just before the last bell rang. Even Willy couldn't keep from cracking a smile :)
